Mar 26, 2009	Maple Grove Community Center 12951 Weaver Lake Road Maple Grove, MN

Course Description

This year's seminar will establish the base for code-built environments that will allow the contractor to have greater success in the office and in the field by giving attendees the opportunity to understand the administrative, technical and the referenced standards identified in the IRC. Attendance will set them apart from their competitors by providing information that will assist them with solving code-related problems and allow the inspection department to document compliance with the intent of the building code while minimizing delays and costly corrections. This 7-hour seminar will cover the code requirements that are specific to the building planning and technical provisions of the IRC including related MN amendments. In addition, an extended portion of this year's seminar will cover the MN Energy Code as well as the proposed MN Radon Code provisions.

Course Schedule

- 7:30 am** Registration
- 8:00 am** Administrative Provisions w/MN Amendments
- 9:45 am** Break

Who are 10,000 Lakes Chapter of ICC and AMBO?

10,000 Lakes is a local chapter of the International Code Council. AMBO is a statewide chapter of ICC representing building officials throughout the state. 10K and AMBO are non-profit organizations that are comprised of over 500 members that most likely include your local building inspector. Together, these chapters have strived to provide quality continuing education for building officials, contractors and anyone within the construction industry.
